Proven Financial Solutions

DataTeam: Proven Financial Solutions

Software Solutions

FA Fund Accounting² & Payroll

Our flagship product, Fund Accounting has proven itself in 20 years of continuous service and improvement. Installed in more than 700 districts nationwide, you can trust DataTeam to handle your General Ledger, Payroll and Purchase Order (Accounts Payable) needs. Additional integrated modules include Accounts Receivable (Student Billing), Remote Site Accounting, Budget Builder and Fixed Assets/Inventory.

HR Human Resources

Now you can take care of all your essential HR functions in one integrated package. Salary schedules, contracts, employee history, position inventory, and much more are at your fingertips. All critical employee information is in one place, conveniently recorded and available for instant look up or reporting. Human Resources is rich with features including the ability to create unlimited contracts and salary schedules, and track any employee information like continuing education credits. HR facilitates improved service to employees and managers, increased productivity, decreased costs and streamlined processes.

FAI Fixed Assets/Inventory

Having control over your district's inventory is becoming more and more critical. DataTeam offers an affordable, integrated solution. "Is my computer still under warranty?" "Where is the new projector?" Did we put all of the new kitchen equipment on the insurance listing? The answers to these questions are just a mouse click away with Fixed Assets/Inventory.

LX Lunch Express

Bring your district's cafeterias into the 21st century with Lunch Express! This advanced point-of-sale system works on a family account basis, meaning parents only have to write one check no

matter how many children they have within the district. It also easily handles free and reduced applications and reporting and is designed to automatically combine all the activity from each school, so you don't waste time with manual computation. Plus, Lunch Express is so flexible it can run on industry standard PC or Macintosh systems. We don't lock you into proprietary hardware.

AA Activities Accounting

Managing school activity funds doesn't have to be a time-consuming hassle. Activities Accounting is an affordable solution that can completely eliminate the need for makeshift spreadsheets or manual systems.

AA is so easy to use, it's a snap, and because it's so flexible, you choose whether or not checks, POs, and receipts are manual or computerized. With AA everyone's happy because every activity is date-stamped, allowing for a secure audit trail.

Online Services

eR eRequisitions

eRequisitions is a unique online service that will stop the paper chase in your district. Teachers, or other requestors, complete a simple form through their Internet browser to send requisitions to be approved. With eReqs your teachers will never wonder what happened to their requisitions and the purchasing clerk isn't bothered by countless phone calls.

Web Web Communications

Now your staff, teachers, and organizations can make their own webpages with just a few clicks of the mouse. Even if they've never created a webpage before, they'll be up and running in no time with our Web Communications service. Webpages are just the beginning! Your teachers can make their sites interactive with message boards, chats, enotes, and much more!
