

## What's new in HR<sup>2</sup> 1.4 build 261

---

### **Enhancements**

- **Enhanced printing of Word contracts**
  - **Export of contract data from HR<sup>2</sup>:** A version of Fund Accounting<sup>2</sup> to be released soon will have the ability to import HR<sup>2</sup> contract data into Payroll repeating entries. The capability to export this data has been added to HR<sup>2</sup> with this release.
  - **Strengthened browsers in Future mode**
  - **Improvement of several reports, including:**
    - Seniority report
    - Salary Modifications reports
    - Certification report
  - **Better reporting of employee age in Report Writer**
- 

### **Additional services**

Many districts already use Excel for populating salary schedules through the use of formulas. It's not hard, but if you need assistance in modifying or building your Excel salary schedules to work with the new HR<sup>2</sup> import feature, please let us know. This service is not covered under your HR<sup>2</sup> support program, but DataTeam would be pleased to assist you for a fee. If you are interested in this additional service, please contact Becky at [bgrom@datateam.com](mailto:bgrom@datateam.com) or 877.843.8206.
